

Input Voltage  
9 Vdc  
+/- 10%

#### Assembly notes:

"DNP" = do not populate

Built on PMP31054 Rev A PCB

Transformer T1 is custom made

Place zero Ohm resistors on R18, R27, R45 and R36 if the printed coils is used

Do not populate R18, R27, R45 and R36 if the transformer T1 is used

Texas Instruments and/or its licensors do not warrant the accuracy or completeness of this specification or any information contained therein. Texas Instruments and/or its licensors do not warrant that this design will meet the specifications, will be suitable for your application or fit for any particular purpose, or will operate in an implementation. Texas Instruments and/or its licensors do not warrant that the design is production worthy. You should completely validate and test your design implementation to confirm the system functionality for your application.
